Yea, that works, they'll just get more paper and we won't have to manipulate all the data tables.

Subject: SH Bell Letters and Data Update

Good morning Steve and Brad,

I hope you both had good weekends. After taking a look at both the federated reports and our reports for SH Bell, we may be OK just sending over the data as is. Take a look at the attached files, since we had more analytes than just lead and arsenic we don't have more than one sample per page of the reports. I created a PDF version of the samples from just one property and can do this for the remaining homes. If you have any different requests or suggestions let me know!

We also received more Level IV data this morning and I sent it over to our Chemist. Other than that, we are on for sampling this Thursday. I'll forward you a list of addresses and phone numbers shortly.

Thanks!
